It is important to note that, you, the individual are responsible for the charges. Please read the information in this brochure carefully, as it outlines the benefits of coverage to which you are entitled.

Medical Claims Procedures

Understanding the guidelines of your Plan may prevent you from paying unexpected out-of-pocket fees.

**How to Use Your Health Insurance Plan**

**Before You Visit a Provider (doctor, hospital, pharmacy, specialist)**

**Step 1:** Be sure to present your Health Insurance Card when visiting a Medical Provider.

**Step 2:** To find an Aetna Preferred Provider or go to [www.aetnastudenthealth.com](http://www.aetnastudenthealth.com).

**Step 3:** If you are being treated by an In-Network Preferred Provider, your claim will automatically be submitted to Aetna Student Health by the Medical Provider. If you are being treated by a Non-Preferred Provider, ask how your claim will be filed with the Medical Provider. A Non-Aetna Preferred Provider may ask for payment immediately. If the Provider does not file the claim directly with Aetna Student Health, then you must file the claim by submitting an itemized bill. When filing a claim make sure to provide your name, ID number and ERDT/SHARE! Trust clearly written on all medical bills. Always retain copies for your records.

**Step 4:** Payment on filed claims for covered expenses will be mailed directly to the hospital or doctor unless proof of payment is submitted with the claim.

Once a claim is processed, an Explanation of Benefits (EOB) Statement will be sent to you explaining the benefit paid to the Provider. The Provider will then send you a statement indicating if a balance is due.

**Note:** All Customer Service inquiries, including Provider Network questions, should be directed to Aetna Student Health by calling (877) 437-6532.

Definitions

The following words and phrases when used in this Policy shall have, unless the context clearly indicates otherwise, the meaning given to them below:

**Covered Medical Expense:** those charges for any treatment, service or supplies covered by this Policy which are:

- not in excess of the reasonable and customary charges; or
- not in excess of the charges that would have been made in the absence of this coverage; and
- incurred while this Policy is in force as to the covered person
- except with respect to any expenses payable under the Extension of Benefit Provisions.

**Medically Necessary:** a service or supply that is: necessary; and appropriate; for the diagnosis or treatment of a sickness; or injury; based on generally accepted current medical practice.

In order for a treatment; service; or supply to be considered medically necessary; the service or supply must:

- Be care or treatment which is likely to produce as significant positive outcome as any alternative service or supply; both as to the sickness or injury involved and the person’s overall health condition. It must be no more likely to produce a negative outcome than any alternative service or supply; both as to the sickness or injury involved and the person's overall health condition
- Be a diagnostic procedure which is indicated by the health status of the person. It must be as likely to result in information that could affect the course of treatment as any alternative service or supply; both as to the sickness or injury involved and the person's overall health condition. It must be no more likely to produce a negative outcome than any alternative service or supply; both as to the sickness or injury involved and the person's overall health condition; and
- As to diagnosis; care; and treatment; be no more costly (taking into account all health expenses incurred in connection with the treatment; service; or supply;) than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances; Aetna will take into consideration:

- information relating to the affected person's health status;
- reports in peer reviewed medical literature;
- reports and guidelines published by nationally recognized health care organizations that include supporting scientific data;
- generally recognized professional standards of safety and effectiveness in the United States for diagnosis; care; or treatment;
- the opinion of health professionals in the generally recognized health specialty involved; and
any other relevant information brought to Aetna's attention.

In no event will the following services or supplies be considered to be medically necessary:

• Those that do not require the technical skills of a medical; a mental health; or a dental professional; or
• Those furnished mainly for: the personal comfort; or convenience; of the person; any person who cares for him or her; or any person who is part of his or her family; any healthcare provider; or healthcare facility; or

Those furnished solely because the person is an inpatient on any day on which the person's sickness or injury could safely and adequately be diagnosed or treated while not confined; or those furnished solely because of the setting if the service or supply could safely and adequately be furnished; in a physician's or a dentist's office; or other less costly setting.

**Pre-existing Condition**

A preexisting condition is an injury or disease that was present before your first day of coverage under this plan. If you received treatment or services for that injury or disease or you took prescription drugs or medicines for that injury or disease during the six months prior to your first day of coverage, that injury or disease will be considered a pre-existing condition.

**Prescription Drugs:** any of the following:

• A drug, biological, or compounded prescription which; by law; may be dispensed only by prescription.
• Injectable insulin; disposable needles and syringes; when prescribed and purchased at the same time as insulin; and disposable diabetic supplies.

**Sound Natural Teeth:** natural teeth; the major portion of the individual tooth which is present regardless of fillings and is not carious; abscessed; or defective.
